“Our first quarter results provide a very good start to the year”, said Bill Wignall, President and CEO of Sangoma. “Revenue was strong, augmented by a large one-time order that will not recur next quarter, which helped offset the significant revenue impact of a substantially weakened US dollar and the seasonality exhibited in prior years. It is especially gratifying to see our quarterly EBITDA above \$1 million for the first time. I’m also really pleased with the positive contribution, as anticipated, from the VoIP Supply acquisition completed early in the quarter. I’d like to extend a warm welcome to that great group of talented people in Buffalo, who are now part of the growing Sangoma family.”

Gross profit was \$6.12 million for the first quarter, with gross margin percent at 52%.

Operating expenses were \$5.37 million in the first quarter, up 48% from the same quarter in fiscal 2017, primarily resulting from modest spending increases to support Sangoma's growth and from the acquisition of VoIP Supply.

EBITDA was \$1.10 million for the quarter ended September 30, 2017 up from \$0.42 in the same quarter of fiscal 2017 and also materially above the \$0.70 million earned in the immediately preceding fourth quarter, by over 50%.

Sangoma continues to maintain a healthy balance sheet and finished the quarter with a cash balance of \$3.00 million and working capital of \$4.32 million. Adjusted cash flow from operations was \$1.39 million this quarter, significantly up from the \$0.29 million generated in the first quarter of fiscal 2017.

Outlook for fiscal year 2018

Sangoma's Board of Directors considers that the first quarter results are in line with the guidance already provided, and thus reaffirms forecasted revenue in fiscal 2018 of approximately \$46 million and associated EBITDA of about \$4 million.
