

Digium is committed to making our products and services accessible to all users. We pride ourselves on our products, website and user documentation being easily understandable and accessible to all users, and take measures to assure that mainstream accessibility software tools runs smoothly. We refer to the US Access Board's guidelines, Sections 255 of the US communications Act and 508 of the US Rehabilitation Act and the Web Content Accessibility Guidelines (WCAG 2.0) in order to insure that we are following best technical practices for accessibility. We recognize that our user's needs are individual and vary. Given the very flexible and configurable nature of Digium's products, there may be accessibility challenges that arise.
