

## Property Manager

### All-in-One Business Solution for Your Bed & Breakfast or Small Hotel

#### Datasheet

Sangoma Property Manager (SPM) software is a module for FreePBX and PBXact phone systems, enabling small hospitality properties to effectively manage operations, including rooms, guests, restaurants, and mini-bars, while tightly integrating with the PBX.

#### Staff Features

SPM provides your staff with an intuitive dashboard interface, including:

- Front Desk services to manage check-in and check-out
- Guest services such as mini-bar, guest requests and wake-up calls
- Manage housekeeping services and room clean status
- Billing and invoices for your guests
- Track and manage phone calls and toll charges
- Accounting reports to track occupancy and finances

#### Guest Features

SPM even provides your guests with their own unique dashboard interface, enriching their experience. Features include:

- Mini-bar details
- Wake-up call requests
- Receptionist notifications

SPM is free to use for properties of up to 10 rooms! For businesses requiring more room capacity, inexpensive licenses are available. SPM is already pre-installed with every FreePBX and PBXact phone system which means:

- No extra hardware/software to install
- Easy-to-use
- Small learning curve
- Tight integration with in-room phones

✓ **SPM is Designed for FreePBX and PBXact Phone Systems**

✓ **Front Desk Services, Wake-up Calls, Billing and Accounting Reports**

✓ **Housekeeping Can Enter “Room Clean”, “Maintenance Needed” and Other Statuses from Room Phones**

✓ **Free for Up to 10 Rooms and is Pre-installed in Every FreePBX and PBXact System**

✓ **License Can be Purchased for More than 10 Rooms**

✓ **Staff and Guests Manage SPM Features from Their Own Unique Dashboard**

✓ **Designed for FreePBX and PBXact 13 & Above**
