

Benefit from SIPStation Sangoma's SIP Trunking Service

SIPSTATION
POWERED BY **SANGOMA**

Feature-rich Telephony Services

SIPStation is Sangoma's SIP Trunking service providing Canadian and USA Small-to-Medium businesses (SMBs) and large enterprises with feature-rich telephony services using a standard internet connection.

Aside from guaranteed cost savings over traditional telecom providers, SIPStation SIP trunks also allows you to:

- ✓ Month-to-month service with no obligation or save even more money with our service plans.
- ✓ Choose your own phone numbers and represent your business nationally from outside your office location.
- ✓ Send and receive faxes using our integrated FAXStation solution for high latency business critical environments.
- ✓ Port your own phone numbers to us
- ✓ Create High Volume SIP trunks that are FAX and SMS compatible
- ✓ Share your voice services across multiple locations, reducing monthly costs

SIPStation Features and Benefits:

SIPStation SIP trunks allow your business to obtain telephony services from a provider by using a simple internet connection instead of a traditional telecom link.

COST SAVINGS

Guaranteed cost savings when switching from your traditional telephony provider to SIPStation.

INBOUND NUMBERS AND PORTING

Add as many Inbound numbers as you need. You can also port your existing telephone numbers.

INTERNATIONAL CALLING, T.38 FAXING & SMS

SIPStation phone lines come ready with enhanced features, all managed through your SIPStation Store account.

INTEGRATED WITH FREEPBX AND PBXACT

Sign-up process is tightly integrated with FreePBX and PBXact, automatically configuration your PBX routing for you.

FREE TRIALS

Enjoy a 21-day free trial of SIPStation with a phone number of your choice, no credit card required. Sign up directly from the FreePBX or PBXact GUI.

INTEGRATED FAX SERVICES

IP based faxing that allows you to send and receive faxes from a web interface or from your local fax machine with incredible reliability.

Getting Your Office Up-and-running with SIPStation is Very Simple

STEP 1

Visit the SIPStation Portal at <http://sipstation.com> and navigate to the purchase tab in the menu.

STEP 2

Select your voice or fax capacity, and local or toll-free phone number (or port your existing number)

STEP 3

Watch as SIPStation auto-provisions itself directly in FreePBX or PBXact. Or, copy the registration information into your PBX.

It's that simple! Now, you're ready to start making and receiving calls!

With outstanding support Sangoma is always here if you need a helping hand.

VISIT THE WIKI

You can find many of the answers you're looking for on our wiki. We have hundreds of pages dedicated to various topics for all your questions. <https://wiki.sangoma.com>

Combine Your SIPStation Solution with Sangoma IP Phones

Take advantage of automatic provisioning so your phones configure themselves as soon as you plug them in! Also have access to built-in "Phone Apps" letting you take control of the Phone's display to use your most popular features. No more feature codes to remember!

Best of all, you can order your phones at the same time you purchase & configure your PBXact Cloud services. This way you can have your phones delivered to you already pre-provisioned to work with your new setup.
