

P-Series IP Phones: An Easy Decision

The P-Series is Sangoma's 3rd generation of desk phones and is compatible across Sangoma's PBX and UC line including Business Voice*, Switchvox, PBXact, FreePBX and Asterisk. One series of desk phones to service our entire set of communications platforms! Sangoma IP Phones are feature-rich and priced very competitively across the value, mid-range and executive segments.

Value Models

Have customers that need to deploy many phones with basic functionality in offices, schools, manufacturing or retail?

The **P310/P315** are our most cost-effective, reliable entry-level models.

Mid-range Models

Have customers that need a larger screen to use our business applications built into the phone for better productivity?

Our 4-line **P320** is your perfect choice.

Upgrade to our **P325**, which also has 6-line keys and a paging key for 20 pages of virtual keys. Or go with the ultimate, our **P330** with added 2.4/5GHz WiFi 12-line keys, and support for our PM200 expansion module (coming soon).

Executive Model

Need desktop appeal?

The **P370** executive desk phone doesn't disappoint with a beautiful 7.0-inch touchscreen display, it includes all the features of our P330 mid-range model but with a full-screen view of whatever task is being formed.

What are the benefits?

Users have one Sangoma phone for any Sangoma PBX / UC platform. Mix platforms between offices, but keep the same look and feel!

Sangoma phones all work the same way – not differently between lines:

- » Makes transitions simple; no additional training required
- » Partners stock and support only one Sangoma phone line
- » Lower-cost of entry for price-sensitive opportunities

Simple Auto-provisioning

Clear, High-definition
Performance Audio

Bright, Easy-to-read
Color Displays

Available Worldwide

Solidly Built with Clean,
Modern Aesthetics

Backed by Sangoma's
