

# Reliable And Cost-Effective Solutions For Government

## We Help Agencies Of All Sizes Bring Their Communications Systems To The Cutting Edge Of Technology!

### Reliability

- 99.999% guaranteed uptime reliability
- Continuous, auto-monitoring of systems
- Extensive disaster avoidance and recovery so you are never out of contact

### Cost-Savings

- Hardware that runs on fewer resources
- Cloud-based communications reduce Total Cost of Ownership
- End-to-end solutions, services, and support from a single provider reduces complexity and maintenance

### Improved Communications

- Voice, fax, chat, conferencing, video, and much more
- A rich suite of mobility-enhancing apps
- Numerous protections in place that provide the highest possible call quality

**“We have a call center that takes calls from 14 counties.** We have certain features that we need for that call center and Sangoma is able to provide everything for us for the call center. After meeting with Sangoma and CTSI, and reviewing all of the options and features that we would have with the phone system, we decided that it was the best route for us. The biggest selling factor was definitely the cost savings that we would have.”
