

Communications That The Legal Field Can Depend On

The Reliable, Accurate Communications and Advanced Functionality Demanded By Legal Professionals

Reliability

- 99.999% guaranteed uptime reliability
- Continuous, auto-monitoring of systems
- Extensive disaster avoidance & recovery so you are never out of contact

Functionality

- Voice, fax, chat, video, conferencing, and much more
- Contact center solutions for busy firms
- Enterprise-grade features reduce communications time & improve accuracy

Mobility

- Find Me / Follow Me call routing
- Desktop and Mobile softphones for endpoint flexibility
- Make and take calls on a personal phone without giving your personal number

“One Sunday evening, we had a very large tree that went down across the road. It took out our power, our cable, and our high speed Internet. We were totally blind. Within an hour, we got an email checking to make sure that everything was alright. I repeatedly received contact throughout the entire period that everything was down. We had to call everybody else, but Sangoma called us. It was refreshing.
